DEI

Stands for "Diversity, Equity, and Inclusion." The goal is to provide a learning environment where every learner has the opportunity to thrive, not just get by.

How do I use this in my classroom?

DEI can guide all lessons, activities, and interactions. Ensure that all learners are welcomed and supported and have equal opportunities to succeed despite differences.

When to use it?

Keep DEI in mind to meet the needs of all learners, no matter their race, ethnicity, neurodivergent/neurotypical status, or any other background. Ensure fair treatment and equal opportunity for all by focusing on making all learners feel safe, understood, accepted, and recognized.

Why Use it?

Research shows that organizations centered around DEI are stronger and result in better individual outcomes.
